TRAIN HITS CAR, KILLS ONE; BOY LEFT ON R. R. TRACKS

HIT OVER HEAD BY ASSAILANT; IS UNCONSCIOUS WHEN RESCUED

Left lying unconscious on the Santa Fe railroad tracks near the Peres school house, as the result of an attack by an unidentified man, 4-year-old George Schwartz, Jr., son of George Schwartz, local automobile accessory merchant, was rescued by Manuel Estrade shortly before the arrival of Santa Fe train No. 9 bound for San Francisco.

A jagged wound had been cut on the boy's head when he was struck by a rock in the hands of his assailant who had enticed him near the railroad tracks with offers of candy.

According to the story told the police by the boy, he was playing on Macdonald avenue in front of his father's store yesterday evening shortly after 5 o'clock when he was approached by a man who offered him candy if he would go with him. The boy's description of his assailant was rather vague, and police were unable to determine whether or not the attacker was a man or an older boy. George Schwartz, Sr., was inclined to the former theory.

When the man and boy approached the railroad tracks near the school the man is said to have seized a rock and to have struck the boy over the head. George fell on the railroad tracks, and his assailant fled.

Hearing a cry Manuel Estrade, who resides at 675 Fourth street, investigated, and found the boy lying unconscious on the tracks. He took the youth to the police and later to his father.

Officers threw a dragnet around the scene of the attack at once, but up to a later hour last night had failed to find trace of the man.

Asks Abatement Of Three Richmond Establishments

Alleged sales of liquor from three Richmond establishments, including a hotel, resulted in District Attorney A. B. Tinning filing suits yesterday under the abatement provisions of the Volstead act asking orders closing the establishments for one year. The places named in the suits are:

Hotel d'Italia, owned by Guido Pacini; Mecca Bar, owned by William Ellis and a building at 1706 Macdonald avenue, owned by Vincenzo Lencic.

In filing the suits the district attorney departed from the course he has followed heretofore. An order closing the establishment alone is asked. He eliminated a plea for temporary restraining order to prevent the sale of liquor from the premises since a recent Supreme Court decision specifies that when such action is taken the owner must be given ten days' notice before filing of the suit.

California Bears Down Washington Blewett Drop Kicks Forty-Four Yards Idaho Vanquished by Cardinal Eleven

Idaho's previously undefeated team travels north today on the losers end of a 17 to 7 score as the result of its meeting with the Cardinal eleven at Palo Alto yesterday.

Stanford's first score came soon after the start of the second quarter when the ball was carried from Idaho's 40-yard line over for a touchdown by straight line bucks, Nevess carrying the ball. Near the close of the same quarter Idaho's opportunity came, and the end of the half found the teams tied, 7 to 7.

In the third quarter Stanford again took the lead, this time through a field goal made by Cuddeback from the 23 yard line. An intercepted forward pass in the last quarter gave Stanford the ball on Idaho's 45 yard line. A few line bucks and a pass, Buddeback to Campbell, which resulted in a 27 yard run, and the Cardinals had cinched the game 17 to 7.

Aliens Who Took Night Classes Pass Examination

An interesting side light on the citizenship examinations conducted at Martinez before Superior Judge A. B. McKenzie, was the fact that all aliens who have attended night school citizenship classes were successful in passing the quiz. Among the Martinez residents who have been attending the citizenship class at Alhambra high school and who were successful in passing the examination were Mrs. Delfina Gotelli and Manuel J. Dutra.

Instructors report that enrollment in the Americanization and citizenship classes at the high school is increasing rapidly and that a large number of non-citizens are learning to read and write the English language.

Drug Addicts Try To Burn Hospital

An attempt was made to burn the insane ward at the Martinez hospital Friday night by Louis Smith, a drug addict who had been committed to the Ukiah State hospital, according to hospital attaches.

Smith had been confined in a cell in the insane ward and according to hospital authorities during the night he stuffed a sheet from the bed into a hole in the heavy cell door, and then lighted the cloth.

The smoke from the burning cloth aroused attendants who quickly extinguished the flames before any damage was done.

Smith and his wife, Olive Smith, were arrested in Richmond and taken to the hospital on charges of being drug addicts. They were both committed to the state institution.

The Standard Oil Rifle club will compete in the state championship shoot to be held today at Elona Heights under the auspices of the California Rifle and Pistol association. The shooting will start at 8 o'clock a. m.

Outplaying the much vaunted Washington Huskies in all departments of the game, the California Bears defeated the northerners 9 to 0 in a contest played before a crowd estimated at 35,000 which packed the Berkeley field to the limit.

The Bruins scored in the first quarter when Blewett drop-kicked from the 44-yard line, marking up three points for California. In the third quarter California put over the only touchdown made during the game, Nichols carrying the ball.

For practically the entire game the ball was kept in Washington's territory, the Bears forcing the northern team to show its best in an effort to keep the score from mounting.

Near the last of the game Washington started a wild forward passing contest, and with the aid of several good line bucks, making downs for the second time during the game, brought the ball to California's fifteen yard line. Here they elected to try line bucks, but on the fourth down, with four yards to go, threw a forward, which was intercepted.

Crowds swarmed about the field before the game, trying in vain to secure tickets to view the match. As the contest started and it was found that no tickets were available many "crashed the gate."

California's eleven, undefeated for four years, is now the only undefeated team in the Pacific Coast conference for this season and will probably remain so, even after the Stanford session.

CHAMBER TEAMS EXPECT TO REACH \$20,000 MARK IN NEAR FUTURE

When the twenty campaign team captains in the Chamber of Commerce re-organization canvass make their reports at Monday's luncheon, it generally is predicted that the goal set, \$20,000, will be so nearly within reach as to warrant announcement of a date to perfect the formation of the chamber.

Reports from the field workers yesterday were highly encouraging. One captain of the Jack Rabbits' division reported that he had secured 12 applicants for membership during the forenoon.

Sentiment in favor of a first-class organization is growing daily, according to Chairman S. B. Merry, of the committee of 100.

Manufacturers, exporters, utility corporations, retail merchants, artisans, professional men and workers in all walks of life have shown their desire to be parts of the great civic clearing house which the Chamber of Commerce purports to be.

South Is All Set

"It's a shame that Richmond, a city of over 25,000 people, should be without a Chamber of Commerce. You people ought to be ready to enjoy your share of the prosperity that is headed for the Pacific Coast," said a visitor from the South in talking to a Richmond banker Saturday. "You can bet that Los Angeles and all the small cities nearby are ready for the in-rush of folks and money," he concluded.

Monday's luncheon will be highly interesting, not only because of reports of the two grand divisions, but for the reason that policies that touch the vitals of the organization will be discussed.

The luncheon will start promptly at 12:15 and will be in the basement of the Elks building. The captains and their lieutenants are expected to be on hand.

The divisions are as follows: Greyhounds, Colonel S. B. Merry, commanding, with Captains C. F. Donnelly, Fred Caudle, Aubrey Wilson, Geo. N. Rooker, W. D. Mason, J. O. Ford, W. J. Richards, Jr., E. M. Downer, L. Garfinkle, and E. B. Bull.

The Jack Rabbits, Colonel W. W. Scott, commanding, with Captains Fred B. LaMoine, Henry A. Johnston, Fred S. Newsom, Percy M. Sanford, J. L. Eakie, Jesse C. Hitchcock, E. J. Garrard, J. P. Strom, Carl Overaa and Larkin J. Younce.

Hall To Attend Fare Hearing

City Attorney D. J. Hall will represent Richmond at the hearing of the state railroad commission which will be held in Oakland, Monday, for the obtaining of half fare for school children of Oakland, Berkeley, Albany, Emeryville, Piedmont and San Leandro. Although Richmond at present has the half fare rates, Attorney Hall's presence will be as a protective measure.

Master In Jail Officers Care For Animals

"Charles" and "Buford" the dog and horse belonging to C. Schneider, are visitors at the Page stables, Point Richmond, during their master's indefinite stop at the local police station. Schneider was arrested for violation of the Wright act by the police Friday night when his plan to move his place of business from El Cerrito to San Pablo was apprehended. Police Sergeant L. E. Jones sympathy was awakened when he saw the two dumb animals shivering in the cold in front of the police station and he arranged for their care.

POLICE QUESTION BEFORE COUNCIL

Tomorrow evening the council chambers will undoubtedly be packed to capacity, and the "standing room only" sign would not be out of place. Important matters affecting the police department and the fire department are to come up for determination by the council.

Chief of Police Wood has made a recommendation that Officers Charles Ceredoni and Charles Mahnike, be dismissed for the good of the department. This matter was referred to the police committee consisting of Plate (chairman), Hartnett and Garard, to investigate and file a report. On account of the absence last Tuesday evening of Councilman Plate, the chairman, the reading of the report was postponed until tomorrow evening. In this report, the recommendation of the committee will be made, and the council members have stated that they will uphold the report of the committee. Not a word as to what the report will contain, has been heard.

In connection with the Police department, since the recommendation of Chief of Police Wood was filed, petitions have been circulated about the city, asking for the dismissal of the head of the department. For the past few days it has been rumored, that the petition would not be filed. It has been charged that those responsible for the petition against the chief, are allied with the bootleggers, and lawbreakers, of the city, for whom conditions in Richmond are not the most pleasant, on account of the work of Chief Wood.

The same night the report of city manager J. A. McVittie will be filed on the charges made by the chief of the fire department, Roy Lemoin, against firemen H. J. Schmidy, E. L. Bailey, A. Hickock and S. A. Caldwell.

The charges were filed with the council two weeks ago, and then turned over to the city manager to make his recommendations. This week McVittie held a hearing, but the result of it is not known.

The night the charges made against members of the department by the head, were read, Councilman Frank Scholes and George F. Black made the statement it was their opinion the charges were not made for the good of the department, but as the result of personal grievance.

The accident occurred as the two men were driving east to cross the railroad tracks at the San Pablo station. They were returning at the time from a trip to the bay. The car was demolished in the crash.

Richmond Merchant Asks for Divorce

Abe Dickstein, well known Richmond merchant, filed suit in the Superior Court at Martinez yesterday for a divorce from Lillian C. Dickstein on grounds of cruelty.

Assemble Star Car, In Oakland Plant

It's a wonderful sight to see parts come into one end of the Star car factory in East Oakland and finished cars driven out the other end of the plant, under their own power, every day, at the rate of several hundred a day.

The Star plant has been in operation for a little over a year and in that time over 23,000 cars have been assembled and sold in the Pacific coast states and several hundred thousand throughout the country.

The mechanical processes at the local plant are interesting. The motors come from the factory in the east, completely assembled and ready to go into the chassis here. Experts test each motor, however, before it is placed in a car. There are no chances taken. Every car must be

right before it is passed for use.

The rear axles are assembled in the east and shipped out here. The frames too are built in the east and come to Oakland ready to go into the assembly line.

All open car bodies are built in the local plant. The parts are fabricated and the tops and curtains built here. First the frame is placed on the moving assembly line. It is painted, and passes through an oven which dries the paint. The various units are fitted as the skeleton car passes down the long factory. When it is a complete chassis a body drops through a trap door from the floor above and is bolted to the chassis below. The car is then ready to run. A tester takes it in charge and runs it away from the assembly line and puts it through its paces. If all is not right, it is made right at once.

RETURN FROM EAST

Mr. and Mrs. Thomas H. Powers have returned from the East. Mrs. Powers has been gone for several months to New Orleans where she attended the funeral of her brother.

Motorists Warned Against Use of Wrong Headlights

It has come to the attention of the Division of Motor Vehicles that a number of headlight lens manufacturers and distributors are selling headlight lens and devices which are not in conformity with those tested at the state's testing agency. While these lens carry the name under which approval has been granted they are in reality entirely dissimilar devices. Retests are to be made on some of these devices in the near future and if the report is proven to be true prosecution under the provisions of the new act, of those involved, will be made. Likewise a prohibition against the sale of the lenses will be authorized until such time as the manufacturers are able to satisfy the department that they are distributing in California the kind and type of lenses on which they have received approval.

Request has been made for the registration of trucks and other vehicles equipped with coal oil lamps and other devices not approved by the department, on the grounds that the machines are operated in the daytime only. The law under Section 100, however, expressly states: "Every motor vehicle shall be equipped with two headlights of approximately equal candle power at the front of and on opposite sides of such vehicle." The law further states that every machine sold or offered for sale for operation on the public highways must be equipped in compliance with the specifications prescribed within the act, none of which specifications permit of the use of any except approved headlight devices and lenses. The chief of the department has therefore, ruled that every vehicle operated on the public highways whether in daytime or night must be properly equipped.

Attention of the department has been called to excessive charges made by some of the adjusting stations

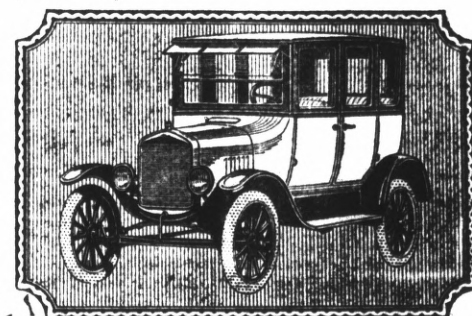

recently certified. While no fixed charges is prescribed by the department an ordinary adjustment should be made for not to exceed 75c. Any charge in excess of that amount is deemed "exorbitant and wherever it is proven excessive charges are being made, the Division of Motor Vehicles will deem that sufficient cause

for the revocation of adjusting station certificates.

DIVISION OF MOTOR VEHICLES (Signed) By Will H. Marsh.

Mrs. Anna Jarvis, prominent Richmond club woman, is confined to her home at 544 Twentieth street. Mrs. Jarvis has been seriously ill but she is reported to be improving slowly.

Ford Four-Door Sedan

Fully equipped, \$685, f. o. b. Detroit

Inside and out, the new Ford Four-door Sedan shows improvements of far more than usual importance.

It is lower and sturdier in appearance. New cowl, hood, radiator and apron add size and finish to the front. Sun visor, and wide, well-finished aluminum doors with bar

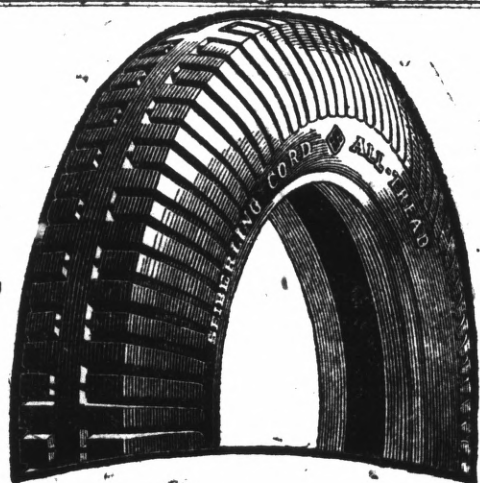

handles, perfect the design of the body.

Silk window curtains, deep-broad-cloth upholstery, dome light, door lock, window regulator and handles, all finished in nickel, complete refinement you would expect only at a far higher price.

This car can be obtained through the Ford Weekly-Bureau Deal.

Three Men AND a Maid

"Fountain pen," bubbled Sam, "with a broad nib."
"Yes."
"A broad gold nib," went on Sam, with the painful exactitude which comes only from embarrassment or the early stages of intoxication.
"Really?" said Billie, and Sam blinked and told himself resolutely that this would not do. He was not appearing to advantage. It suddenly occurred to him that his hair was standing on end as the result of his struggle with Wildgery. He smoothed it down hastily, and felt a trifle more composed. The old fighting spirit of the Marlowes now began to assert itself to some extent. He must make an effort to appear as little of a fool as possible in this girl's eyes. And what eyes they were! Golly! Like stars! Like two bright planets in...
However, that was neither here nor there. He pulled down his vest and

"Good Morning," said a voice.

became cold and businesslike—the dry young lawyer.
"Er—how do you do, Miss Bennett?" he said with a question in his voice, raising his eyebrows in a professional way. He modeled this performance on that of lawyers he had seen on the stage, and wished he had some snuff to take or something to tap against his front teeth. "Miss Bennett, I believe?"
Billie drew herself up stiffly.
"Yes," she replied. "How clever of you to remember me."
"I have a good memory," said Sam. "How nice! So have I!"
There was a pause, during which Billie allowed her gaze to travel casually about the room. Sam occupied the intermission by staring furiously at her profile. He was by now in a thoroughly overwrought condition, and the thumping of his heart sounded to him as if workmen were mending the street outside. How beautiful she looked, with that red hair peeping out beneath her hat and... However!
"Is there anything I can do for you?" he asked in the sort of voice Wildgery might have used. Sam always pictured Wildgery as a small man with bushy eyebrows, a thin face and a voice like a rusty file.
"Well, I really wanted to see Sir Mallaby."
"My father has been called away on important business to Walton Heath. Cannot I act as his substitute?"
"Do you know anything about the law?"
"Do I know anything about the law?" echoed Sam, amazed. "Do I know—Why, I was reading my Wildgery on Nisi Prius Evidence when you came in."
"Oh, were you?" said Billie, interested. "Do you always read on the floor?"
"I told you I dropped my pen," said Sam, coldly.
"And of course you couldn't read without that! Well, as a matter of fact, this has nothing to do with Nisi—what you said."
"I have not specialized exclusively on Nisi Prius Evidence. I know the law in all its branches."
"Then what would you do if a man insisted on playing the orchestra when you wanted to get to sleep?"
"The orchestra?"
"Yes."
"The orchestra, eh? Ah, h'm!" said Sam.
"You still haven't made it quite clear," said Billie.
"I was thinking."
"Oh, if you want to think!"
"Tell me the facts," said Sam.
"Well, Mr. Mortimer and my father have taken a house together in the country, and for some reason or other they have quarreled, and now Mr. Mortimer is doing everything he can to make father uncomfortable. Yesterday afternoon father wanted to sleep, and Mr. Mortimer started this orchestra just to annoy him."

Rheumatic Paralytic For Years Now A Well Woman

Oakland, Cal. Sept. 13, 1923.
For years I suffered from Rheumatic Paralysis that I was unable to leave my bed. My hands and face were swollen and I had agonizing pains all over. My bladder and kidneys were in a terrible condition and I had pleurisy pains.
I had been treated by numerous medical men and had stayed in a hospital for many months, but my condition was not at all improved. A friend having urged me to try the FONG WAN HERBS, my husband asked their herbalist to call on me. We bought and cooked some of the herbs at home, and my bladder and kidneys were relieved almost immediately.
I took the herbs for about four months, and words cannot express my gratitude for my complete recovery. I am also happy to say that although I have taken no herbs at all during the past six months, I still remain well.
I gladly give my photo and this testimonial to the FONG WAN HERB CO. know FONG WAN to be a straightforward business man who makes no vain boasts. I also know that he has relieved terrible cases of suffering, and I have recommended numbers of persons to buy his herbs, and they have all been satisfied.
I live right here in the heart of Oakland. Anyone who really wishes to take the FONG WAN HERBS and would like to know more about how wonderfully the herbs have helped me, can obtain my address at the FONG WAN OFFICE.

"Nomadic Essex" Is Nickname of Burns Touring Car

The "Nomadic Essex" would be a very good nickname for the touring car owned by Antoni Malachowski, who with Mr. and Mrs. Jack Burns and their mascot "Kiki" Burns, has just completed an interesting tour through most of the states of the union.

The car was purchased in 1920 at Mountain View. For two years Malachowski drove over the country roads about his home town; then, on July 13, 1922, he started on a trip that was to take him 27,000 miles in a period of a year and a half.

His first stop was at Tijuana, and from there he visited the Imperial Valley and thence over the inland route to San Bernardino and Los Angeles. Every point of interest between Los Angeles and the Canadian border was visited. From San Francisco the party went to the Big Trees then to the Yosemite National Park, across the Tioga road to Lake Tahoe and back via the Truckee summit to San Francisco.

From San Francisco they traveled to Portland, Seattle, Vancouver along the Columbia river highway, and down to Yellowstone National Park, then on to Denver.

Their next destination was Philadelphia, going through Minneapolis, Milwaukee, Chicago, Indianapolis, and Baltimore, on the way. During the winter they took various trips through the New England states, and up and down the Eastern coast.

On the transcontinental trip from New York west they made as high

as 300 miles per day over roads that were not too good. At places the caravan got separated and stretched out between several towns. Cars that stuck in the mud had to be pulled out, but the Essex came through on its own power in every instance except one, where it was half buried.

On arrival the speedometer registered over 47,000 miles.

Studebaker Makes Endurance Test

Thirteen men alternated driving the Studebaker in the seven day non-stop endurance test that was held lately in Syracuse, N. Y., when 5504 miles were covered at the average speed of 33.9-16 miles an hour.

The highest average speed for any hour during the test was 48 miles an hour and the highest speed reached at any one time was 67 miles an hour. But three gallons of water were used in the run and no extra air was put in the tires during the seven days.

The best average for gasoline mileage for a six hour period was 23.1 miles to the gallon.

San Pablo Woman Dies at Oakland

Governor Walton Withdraws From Impeachment Trial

OKLAHOMA CITY, Okla., Nov. 17. "I reached the conclusion that I cannot have a fair trial in this court. I hereby withdraw."

Governor J. C. Walton amazed the Senate court of impeachment today by rising from the midst of his counsel at the center table and making this statement.

The governor's statement came immediately after testimony regarding the Ku Klux Klan offered by the defense counsel had been barred by the court.

Before the trial could proceed Walton, pale of face and in a voice that was not entirely steady, rose slowly to his feet and began to speak. It was the first time he has personally been heard.

"I have been sitting here fighting for my honor and right for ten days," he said. "I don't wish to criticize any of the honorable members of the court, but I reached the conclusion that I cannot have a fair trial in this court."

"Therefore, for my own sake and for the sake of my wife and children, upon whom the stain of this unfair trial will reflect, I hereby withdraw from this court. You may proceed as you see fit."

The governor's action took the court by surprise, and great commotion ensued for a time, after which the trial proceeded without him.

Shortly after Walton withdrew, the Senate court was thrown into an uproar by the attempt of Senator Anglin, president pro-tem of the Sen-

Effort Being Made Buy Contact Mine

For the past week a party from San Francisco has been nosing around quietly among the stockholders of the Contact mine, trying to find out what they would sell out for individually, and asking for all kinds of information regarding the property. Nobody seems to know what is behind this, but the management thinks it smells a mouse, for the reason that some time ago a big mining outfit in that section made overtures toward buying the mine, and intimated that they might be willing to pay a certain sum which, if accepted, would have netted the stockholders about three dollars for every one they had invested. The offer was turned down, as nobody here wanted to sell, and it is not improbable that a quiet effort is being made to gather up a controlling interest from among the stockholders as individuals.

Superintendent Weldon writes yesterday that the new mill will start up in active operation within a week.

ate, to attack Attorney Sprague, one of Walton's counsel.

Anglin was held off by half a dozen senators and the court took a recess of 20 minutes.

Anglin had stated that he understood that all subpoenas for witnesses for the governor had been withdrawn.

Sprague said he did not believe any such statement had been made.

Anglin shouted something about being called a "liar," hurled a pencil at Sprague and attempted to crawl over the desks toward him.

The disturbance finally was quieted down.

Daytime Wife Is Macdonald Theatre

Presenting a splendidly virile drama of woman against woman for supremacy in love and business.

"Daytime Wives," which is now being shown at the Macdonald theatre, is a great, powerful drama of a woman's heart. It is a striking example of the power of a motion picture to combine love, humor and pathos with smashing melodramatic thrills.

It shows the deep, unselfish, self-sacrificing affection which an office girl had for her employer, contrasted with the selfish, self-satisfied feeling displayed by a rich man's wife with nothing to do in life but live

a round of jazz-bubbles and saying sweet nothings with many words to other men. It unfolds a story of how an office girl unselfishly helped her employer to make a name for himself and gather in the dollars to hand over to an empty-headed baby doll flapper to spend on drinking, gambling and chasing male butterflies.

Satisfaction is the Most Economical Thing in the World

You can't afford dissatisfaction. Nobody is rich enough to pay the price of dissatisfaction. Especially is this true as applied to automobiles. The best car for any man is the car that gives him daily, dependable, satisfactory performance. It takes more than a car to do this. It takes a car plus a good, strong, established local dealer. We offer the Hudson Essex and Maxwell cars as economical cars. We offer ourselves as the complement to local car ownership.

The New Hupmobile

Hupmobile Open Models Can Give You Real Closed-Car Comfort

Here, at last, is an open car with storm curtain equipment that can quickly transform it into a snug, trim and thoroughly protected closed car.

This immensely popular and exclusive feature of the new series Hupmobile touring car and roadster is one of the many reasons for the extraordinary success of these models.

By the application of an original principle of design these curtains not only assure the owner the comfort of closed car protection from rain, wind and cold, but they guarantee him at all times a clear vision and a trimness that hitherto it has not been possible to secure.

These curtains do far more than open with the doors. The secret of their comfort

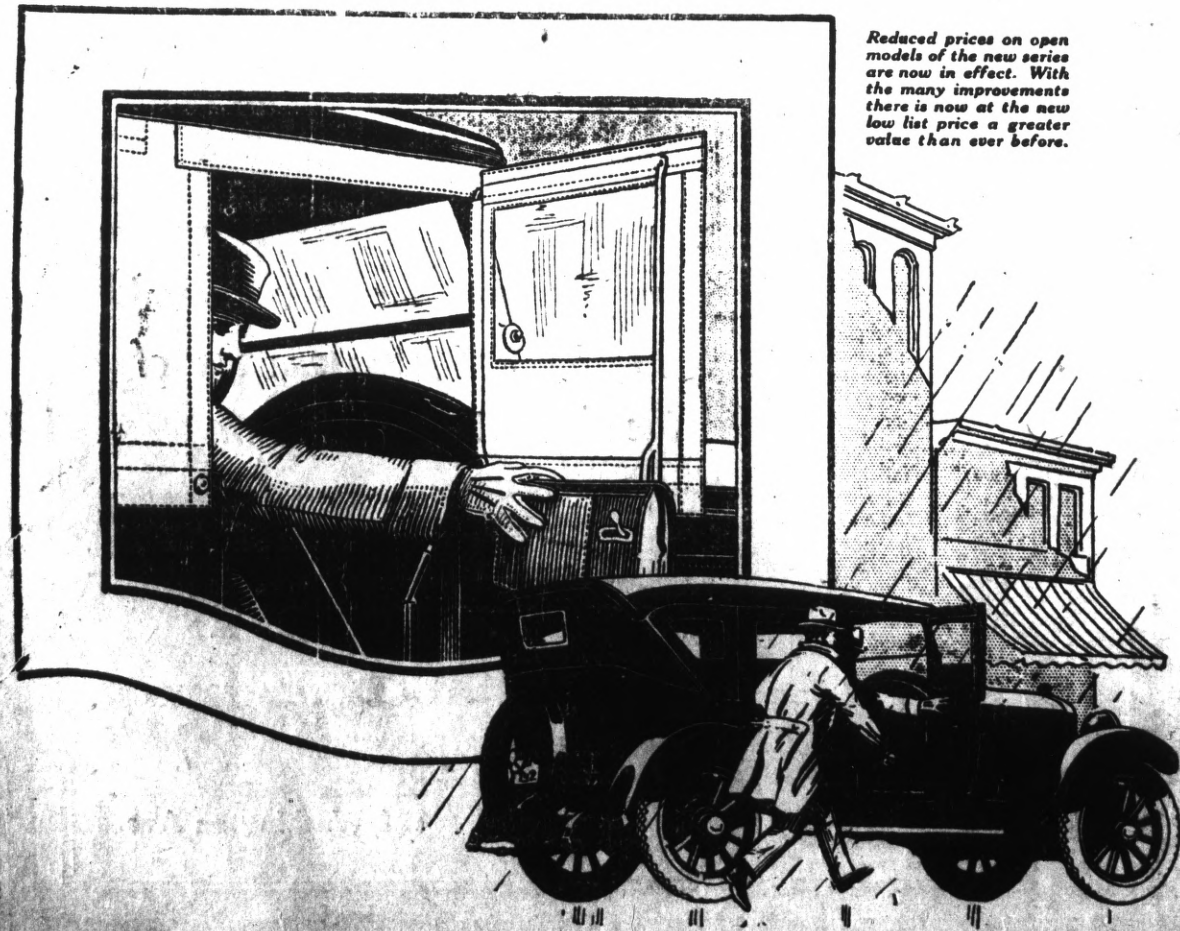

and convenience is the fact that they are metal-framed, stowed flat, never rolled and are handled always in individual flat units.

Thus the curtain lights are never scratched or broken. They are kept flat by the frame—no wrinkling when stored, no sag when in use. Individual units are slipped easily and quickly into and out of their envelope compartment at the back of the front seat.

The curtains can be attached without the necessity of anyone leaving the car and in a fraction of the time ordinarily required for the adjustment of side curtains. Nothing has ever been devised to approach them in their effectiveness, their simplicity and the ease and speed with which they can be installed.

Two Thousand Dollars

Is all the interest anybody can ever buy in the Contact Mine, and that offer will be absorbed within a week, at 50 cents the share. It is not likely that any more will be offered at any price, as the new mill will be coming down to the mint at San Francisco, by January, anyhow.

This offer is made because of cancellation of contacts of a few parties who could not complete them. This places the company in fine position, with winter supplies all in and paid for, mill completed and paid for and no end of profitable ore now in sight waiting to be thrown into the mill.

This stock should be in demand by spring at a dollar, and maybe five dollars, for the Kate Hardy mine, adjoining on the same ledge, is now again in high grade ore and the Contact management and Superintendent confidentially expect to break into the same now, most any month, week or day.

Those who are already stockholders have more than doubled their money. Those who take this remaining allotment will do the same in six months or less. There is no gamble about it now whatever. That period has been passed long ago.
